Q. 5 Read the passage carefully and answer the following questions:

Man has progressed in this world with great research and constant endeavour. The scientists have played a pivotal role in this connection. He has always desired to get power and energy from a source with unlimited potential. The research in the mysteries of the atom is going on in many countries of the world. It is hoped that before long better and more efficient reactors will be built. These will be able to obtain atomic energy at an economical cost. Atoms provide compact form of fuel which provides a vast amount of energy and it also lasts longer.

Atomic energy can be used in many ways and for many purposes. It can be used to bring peace and prosperity to the whole of this earth. It can also be used to destroy the world and its inhabitants. It can perform miracles if we have the power and wisdom to use it for peaceful purposes. If we do not possess that wisdom, man has not many years to live on this earth.

Questions.

1. How has man progressed in this world? (02)
2. What sort of reactors are required to obtain a vast amount of energy? (02)
3. What are the uses of atomic energy? (02)
4. Make a precis of the passage and suggest a suitable title to it. (09)
